Note:

In a personal interview with Barbara Attaway on March 29, 2016, she stated that she was fairly certain that several graves had been removed from this location and reburied at the Parker Cemetery behind her farm. After a field review of the possible cemetery location it was confirmed that graves had once been located there. It was noted that several holes with foot stones were still situated at this location. Although no readable stones remained it is believed that additional burials may be located nearby.
