CONTINUATION SHEET

Name:

Survey Number:

Project / FR#: Moorefield to Junction # U314-220-1.54

As an individual structure, the does not have an important link with events or trends that have made a significant contribution to the broad patterns of our history. As an individual structure it does not meet National Register Criteria A of association with events at the National, Regional, or Local level.

It is not eligible for the National Register because it is not known to have been associated with the productive period of some notable person's life, nor has it been associated for any length of time with such a person, nor is it the best representation of such a person's historic contribution (NRHP Criterion B).

This structure does not represent the work of a master or possess high artistic values. While it embodies the characteristics of an architectural period, they are of commonplace type and method of construction, and this is not an important example of these building practices. Its workmanship is not remarkable. NRHP Criterion C is not met by this structure.

This structure is not likely to have important information that will contribute to our understanding of human history or prehistory. Construction appears to have utilized known techniques, tools, and materials. The potential for information is trivial, so NRHP Criterion D is not met.
