Present Owners J.A. Parker	Owners Mailing Address HC 65 Box 6090 Patterson, WV.
Describe Setting Unknown -- <1 Acres ☐ Archaeological Artifacts Present Rural, pasture along toe of slop on back side of South Branch Mts. and along South Branch of the Potomac River	
Description of Buildings or Site (Original and Present) 2 Stories 6 Front Bays Original structure on site was a log cabin constructed in 1779 by a T. Parker or A. Parker. This early one room cabin was later enclosed (1830's possible date from owner) by a two story frame "I" house and a single stone chimney (photo #1). The residence initially faced away from the present Rt. 50 to the original road location to the east of the structure. and there are two one bay central entries under a hipped tin roof on each side (photo #2 & #3) The porches are supported by both square wooden and spindle posts, both have decorative balustrades. Later construction (prior to 1900) included an additional three room long, one room deep "'L' configuration (photo #4) with an eastern facing 3/4 length porch, for that section, under a hipped tin roof. (See Continuation Sheet)	
Alterations ☒ Yes ☐ No If yes, describe House as has continual additions and renovations with the family occupancy. Core of structure is undiscernible with the later additions in place	
Additions ☒ Yes ☐ No If yes, describe See building description	
Describe All Outbuildings See attached description	
Statement of Significance: The local history of the general area is reflected in the construction and operation of this farmstead and seems to be significance to warrant further documentation

WEST VIRGINIA HISTORIC PROPERTY FORM

CONTINUATION SHEET

Name: Parker House
 Survey Number: Mechanics Gap Bridge
 Structure #1
 Project / FR#: Mechanics Gap Bridge
 S314-50-4.47

House Description: In 1903 (see photo #5-6) a "creamery was added, which is a two story one bay open end gable (tin roof) structure added to eastern side of southern end of residence (photo #5). This is one of numerous industrial/commercial structures on the site.

Outbuilding #1

Adjacent between the 1959 residence (photo #7) and the 19th century residence is a one room "work shed" under a hipped roof of composite roll asphalt with a porch under the common roof supported by two wooden square posts. The structure is built on wooden piles and there are four (4) one over one wooden sash windows (Photo #8).

Outbuilding #2-3

Behind (east) of 1959 residence (photo #9-10) is combination woodshed/workshop. Front end (north end) is a slab-sided open end gable (tin roof) with no windows and single center entry door. There is a shed roof smaller shed addition at west corner. The rear of the shed has an open end (tin roof) single wide with (2) one over one wooden sash windows. There is a center ridge stove pipe to an interior wood stove.

Outbuilding #4-5

Southwest from main residence lies the remains of a tannery (photos #11 & #14) with the equipment still in place and a log barn with blacksmith shop enclosed (Photos #12-13) The construction of the log structure (blacksmith shop) is a full- dovetail logs with mud chinking (photo#13).

Outbuilding #6

West of Outbuildings #2-3 lie the remains of the "sawmill" The main structure has collapsed but still has the equipment in place under the debris(Photos #5-16).

Outbuilding #7

Northeast of residence is a single tobacco barn/ grain storage structure (Mailpouch ad) Barn has field stone foundation that open end gable barn stands(Photos #17-18).

The Parker Property appears to meet the criteria of eligibility for listing in the National Register of Historic Places under Criterion C: architectural significance and/or Criterion A: in its association with the events on a local level. The structure does not represent a single style but has an overall unity that reflects the development of the the southern farm complex of additions and related outbuildings that are representative of the diverse operations that made up such agricultural complexes of the 18-19th centuries in rural West Virginia. The combination of these elements lends architectural and historic significance to the present day property.

The proposed National Register Boundary for the Parker Property follows the existing tax parcel lines and forms a rectangular shape around the two residences, outbuildings and both barns. It is also bracketed by the former and present day Rt. 50 that are reflected in the same tax map (attached).

Proposed National Register Boundary
