Describe Setting

The courthouse is on the highest hill on a crowded town square in the town of Wayne. Rt. 152, Court Street and South Court Street surround the building.

approx. 1 Acres

no Archaeological
Artifacts Present

Description of Buildings or Site (Original and Present)

3 Stories 3 Front Bays

The courthouse is the third for Wayne County. The present building replaces an older building that was constructed in 1891 and destroyed by fire in 1921. The building has 1/1 replacement sash, 8 brick pilasters in the same fabric as the building, with ornate entablature supported by plain Roman capitals. The pilasters extend above the entablature and end at flat parapet line capped in stone. The entry surround is of sandstone, and granite wainscot coats the interior hallways. Onion domed clock tower.

NAME: Wayne County Courthouse

Site # _____

Statement of significance

The Wayne County courthouse originally consisted of two small clerks' offices and a courtroom. The log structure housed county affairs for the first ten years after the county was established in 1842.

The first real courthouse was constructed in 1852, and served for 40 years before being torn down in 1891 to make way for a stone edifice with Italianate detail and an uneven roof line, punctuated by a square tower. Romanesque touches gave the building a sophisticated air. A photo postcard of the building can be viewed on the web at <http://webpages.marshall.edu/~rfrey/chouse.html>.

The 1891 building was destroyed by fire in 1921, and the present building was completed in 1924. Subsequent expansions came in 1940, 1949, 1971, and 1976. Further additions are planned.

The alternative name of the town of Wayne was for a while "Trout Hill" after the man who owned the land the courthouse sits on.
